User Stories Document

Version 1.0 | 9 June 2026 | 28 User Stories

Summary

Role	Stories	Epics
Guest	5	Catalog Browsing
Librarian	12	Book Management, Member Management, Borrowing, Returns, Search
Admin	6	User Management, Fine Configuration, Category Management, Reports & Analytics
Shared	5	Authentication, Localisation, Responsive UI, Fine Engine

Guest Stories

Users who browse the library without an account.

Catalog Browsing

US-01	Browse the book catalog
Role: Guest	Epic: Catalog Browsing Priority: High
As a guest, I want to browse the full book catalog so that I can discover available titles without needing an account.	
Acceptance Criteria	
1.	Catalog displays title, author, category, and availability status
2.	Results are paginated or infinitely scrolled
3.	No login is required to view the list

US-02	Search books by title, author, or category
Role: Guest	Epic: Catalog Browsing Priority: High
As a guest, I want to search for books by title, author, or category so that I can quickly find what I'm looking for.	
Acceptance Criteria	
1.	Search bar is prominently placed on the catalog page
2.	Results update dynamically or on submit

3.	Empty-state message shown when no results match
----	---

US-03	Filter catalog by availability
Role: Guest	Epic: Catalog Browsing Priority: Medium
<i>As a guest, I want to filter books by availability (available / borrowed) so that I know which books I can borrow right now.</i>	
Acceptance Criteria	
1.	Filter control visible on the catalog page
2.	Available copies count is shown per book
3.	Borrowed books are visually distinguished

US-04	View book details
Role: Guest	Epic: Catalog Browsing Priority: Medium
<i>As a guest, I want to view a book's detail page so that I can read a full description, see the category, and check copy availability.</i>	
Acceptance Criteria	
1.	Detail page shows title, author, category, total copies, and available copies
2.	Page is accessible without login
3.	A login prompt appears if the guest attempts to borrow

US-05	Prompted to log in to borrow
Role: Guest	Epic: Catalog Browsing Priority: Low
<i>As a guest, I want to be clearly prompted to log in when I try to borrow a book so that I understand why the action is unavailable.</i>	
Acceptance Criteria	
1.	Borrow button/link is visible but triggers a login modal or redirect
2.	Message explains that an account is required
3.	Guest can navigate back to the catalog after seeing the prompt

Librarian Stories

Staff who manage books, members, borrowing, and returns.

Book Management

US-06	Add a new book
Role: Librarian	Epic: Book Management Priority: High
<i>As a librarian, I want to add a new book to the catalog so that members can see and borrow it.</i>	
Acceptance Criteria	

1.	Form accepts title, author, category, and number of copies
2.	Validation prevents saving with empty required fields
3.	Newly added book appears immediately in the catalog

US-07	Edit book details
Role: Librarian Epic: Book Management Priority: High	
<i>As a librarian, I want to edit a book's details so that catalog information stays accurate.</i>	
Acceptance Criteria	
1.	All fields editable except system-generated ID
2.	Changes saved immediately and reflected in the catalog
3.	Warning shown if reducing copies below the number currently borrowed

US-08	Delete a book
Role: Librarian Epic: Book Management Priority: Medium	
<i>As a librarian, I want to delete a book from the catalog so that discontinued titles are removed.</i>	
Acceptance Criteria	
1.	Delete requires confirmation dialog
2.	Books with active borrows cannot be deleted until all copies are returned
3.	Deleted books are removed from search results

Member Management

US-09	Register a new member
Role: Librarian Epic: Member Management Priority: High	
<i>As a librarian, I want to register a new member so that they can borrow books from the library.</i>	
Acceptance Criteria	
1.	Form collects name, contact info, and membership details
2.	Duplicate email or ID is rejected with a clear error
3.	New member profile is saved and searchable immediately

US-10	Edit a member's profile
Role: Librarian Epic: Member Management Priority: Medium	
<i>As a librarian, I want to update a member's profile so that contact and membership details remain current.</i>	
Acceptance Criteria	
1.	All profile fields are editable
2.	Changes are saved and reflected immediately
3.	Audit timestamp of last update is recorded

US-11	View a member's borrowing history
Role: Librarian	Epic: Member Management Priority: Medium
<i>As a librarian, I want to view the full borrowing history of a member so that I can resolve disputes or assist with recommendations.</i>	
Acceptance Criteria	
1.	History lists all past and current borrows with dates
2.	Late fines per transaction are shown
3.	History is sortable by date or status

US-17	View a member's active borrows and outstanding fines
Role: Librarian	Epic: Member Management Priority: Low
<i>As a librarian, I want to see a member's active borrows and unpaid fines in one view so that I can handle a return or fine payment efficiently.</i>	
Acceptance Criteria	
1.	Summary card shows count of active borrows and total outstanding fines
2.	Clicking a borrow row goes to the return workflow
3.	Fine total updates in real time as returns are processed

Borrowing

US-12	Record a borrowing transaction
Role: Librarian	Epic: Borrowing Priority: High
<i>As a librarian, I want to record a borrow transaction for a member so that the system tracks which book they have and when it is due.</i>	
Acceptance Criteria	
1.	Form links a member, a book, and an expected return date
2.	Available copy count decreases by one on save
3.	Transaction appears in the member's active borrows list

US-13	View all currently borrowed books
Role: Librarian	Epic: Borrowing Priority: High
<i>As a librarian, I want to see all currently borrowed books so that I have a live picture of the library's circulation.</i>	
Acceptance Criteria	
1.	List shows book title, borrower name, borrow date, and expected return date
2.	Overdue items are visually flagged
3.	List is filterable by due date or member name

Returns

US-14	Record a book return
Role: Librarian	Epic: Returns Priority: High
<i>As a librarian, I want to record when a book is returned so that the copy is marked available again.</i>	
Acceptance Criteria	
1.	Return action is accessible from the active borrows list
2.	Returning a book immediately increments available copies
3.	Return date is recorded against the transaction

US-15	Auto-calculate late fine on return
Role: Librarian	Epic: Returns Priority: High
<i>As a librarian, I want the system to automatically calculate any late fine when a book is returned so that I do not have to compute it manually.</i>	
Acceptance Criteria	
1.	Fine = days overdue x configured fine rate
2.	Fine is displayed before the librarian confirms the return
3.	Zero fine shown (not hidden) when the book is returned on time

Search

US-16	Search books by title, author, or category
Role: Librarian	Epic: Search Priority: Medium
<i>As a librarian, I want a powerful search bar so that I can quickly locate books to edit, delete, or add to a transaction.</i>	
Acceptance Criteria	
1.	Search works across title, author, and category simultaneously
2.	Results appear in under one second for typical catalog sizes
3.	Search is accessible from any librarian page

Admin Stories

Platform administrators managing users, settings, and reports.

User Management

US-18	Manage librarian accounts
Role: Admin	Epic: User Management Priority: High
<i>As an admin, I want to create, edit, and deactivate librarian accounts so that only authorised staff can access librarian features.</i>	

Acceptance Criteria	
1.	Admin can create a librarian account with name, email, and role
2.	Admin can deactivate an account without deleting it
3.	Deactivated accounts cannot log in but their historical data is preserved

US-19	Assign and change user roles
Role: Admin Epic: User Management Priority: High	
<i>As an admin, I want to assign or change the role of any user so that permissions stay aligned with staffing changes.</i>	
Acceptance Criteria	
1.	Roles available: Guest, Librarian, Admin
2.	Role change takes effect on the user's next login
3.	Admin cannot remove their own admin role

Fine Configuration

US-20	Configure the daily fine rate
Role: Admin Epic: Fine Configuration Priority: High	
<i>As an admin, I want to set the fine amount charged per overdue day so that the library's policy is enforced automatically.</i>	
Acceptance Criteria	
1.	Settings page exposes a numeric fine-per-day field
2.	Change applies to all future fines; existing fines are unaffected
3.	Current rate is displayed on the returns screen for librarians

Category Management

US-21	Manage book categories
Role: Admin Epic: Category Management Priority: Medium	
<i>As an admin, I want to add, rename, or remove book categories so that the catalog stays organised.</i>	
Acceptance Criteria	
1.	Category list shows how many books belong to each category
2.	Deleting a category requires reassigning its books first
3.	New categories are immediately available in the book form

Reports & Analytics

US-22	View platform-wide analytics dashboard
-------	--

Role: Admin Epic: Reports & Analytics Priority: Medium	
<i>As an admin, I want a dashboard that shows key library metrics so that I can monitor health and activity at a glance.</i>	
Acceptance Criteria	
1.	Dashboard shows: total books, available books, active borrows, overdue count, outstanding fines
2.	Charts highlight most borrowed books and member activity
3.	Data refreshes automatically or with a manual refresh button

US-23	View overdue books and outstanding fines report
Role: Admin Epic: Reports & Analytics Priority: Low	
<i>As an admin, I want a dedicated overdue report so that I can audit fines and follow up with members.</i>	
Acceptance Criteria	
1.	Report lists every overdue borrow with member name, book, days overdue, and accrued fine
2.	Report is exportable or printable
3.	Totals are shown at the top of the report

Shared Stories

System-level features applicable to all roles.

Authentication

US-24	Log in with email and password
Role: Shared Epic: Authentication Priority: High	
<i>As any user, I want to log in securely so that I can access features appropriate to my role.</i>	
Acceptance Criteria	
1.	Login form accepts email and password
2.	Failed attempts show a generic error (no account enumeration)
3.	Successful login redirects to the role-appropriate home screen

US-25	Role-based access control
Role: Shared Epic: Authentication Priority: High	
<i>As the system, I want to enforce role permissions on every route and action so that users cannot access features beyond their role.</i>	
Acceptance Criteria	
1.	Navigating to a restricted URL redirects to a 403 or login page
2.	API endpoints validate the session role before processing
3.	Role changes propagate without requiring a server restart

Localisation

US-26	Switch UI language between Arabic and English
Role: Shared	Epic: Localisation Priority: Medium
<i>As any user, I want to switch the interface language between Arabic and English so that I can use the app in my preferred language.</i>	
Acceptance Criteria	
1.	Language toggle visible in the header or settings
2.	All labels, messages, and date formats change immediately
3.	RTL layout applied automatically when Arabic is selected

Responsive UI

US-27	Use the app on a mobile browser
Role: Shared	Epic: Responsive UI Priority: Medium
<i>As any user, I want the web app to work well on my phone so that I can perform tasks without needing a native app.</i>	
Acceptance Criteria	
1.	All pages render correctly on viewport widths from 375px upward
2.	Touch targets are at least 44x44 px
3.	No horizontal scrolling on any core page at mobile width

Fine Engine

US-28	Automatic fine calculation on all overdue borrows
Role: Shared	Epic: Fine Engine Priority: High
<i>As the system, I want to calculate late fines automatically whenever a return is processed so that accuracy is guaranteed.</i>	
Acceptance Criteria	
1.	Fine = max(0, days overdue) x daily rate
2.	Calculation uses the configured rate at the time of return
3.	Result is recorded on the transaction and visible in the member's fine history
